

SafeSide CARE

Suicide Prevention Workforce Education · Delivered with InPlace® Learning

Build confident, consistent suicide prevention practice across your team. SafeSide CARE helps your whole workforce respond to suicide concerns with confidence. Teams learn together through a video-guided workshop with an evidence-based framework and continue building skills through practical ongoing learning.

agree the workshop will help them do their current job better.
Data from more than 22,000 SafeSide evaluation surveys

Shared approach

One way to talk about, document and respond to suicide concerns.

Flexible delivery

Run workshops internally using InPlace® Learning, no external facilitator needed.

Ongoing support

Live Learning Sessions, a Community of Practice, microlearnings and updated resources.

What changes after SafeSide CARE?

- ✓ People feel more confident responding to suicide concerns.
- ✓ Teams use the same language and documentation approach.
- ✓ Care becomes more consistent across services and shifts.
- ✓ Everyone understands their role in suicide prevention.
- ✓ Sustained workforce development supports new staff onboarding and continuous skill development.

How it works

Structured, flexible, and ongoing.

1

Learn together

Video-guided workshops done in small groups (in-person or remote), with real clinical and lived-experience demonstrations.

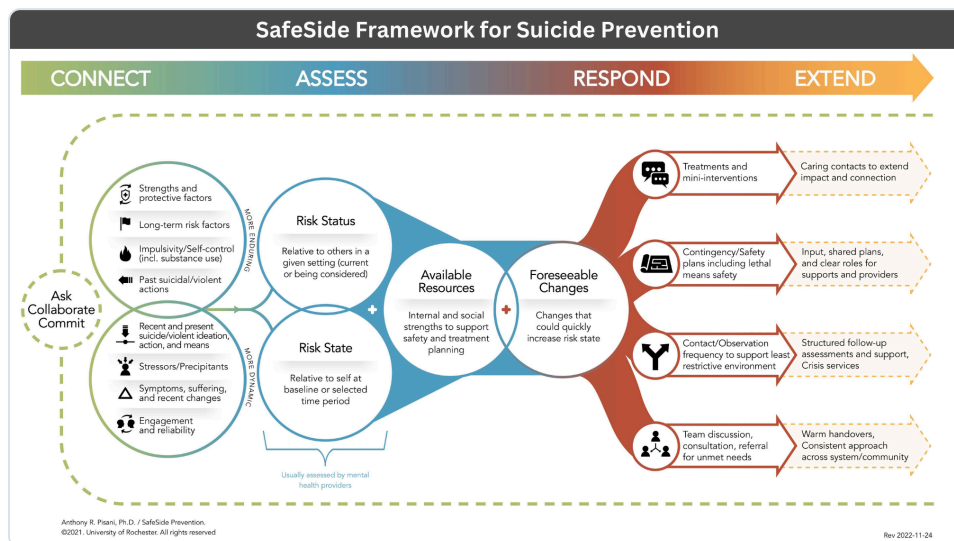

2

Keep building skills

Live Learning Sessions (Questions & Updates and In Focus), a Community of Practice, weekly microlearnings and updated resources.

Connect · Assess · Respond · Extend

The SafeSide Framework gives everyone a shared way to respond to suicide concerns with a map of evidence-based and best practices in suicide prevention.

The adaptations

Choose the adaptation that fits your team.

Every adaptation follows the same InPlace® workshop format and ongoing learning; what changes is the demonstrations, filmed with real staff and client actors in the settings your team encounters.

Mental Health

Clinical and non-clinical roles, including psychiatrists, psychologists, counsellors, social workers, and peer workers.

Duration: 3h 45m

Demonstration settings: Community, hospital, home & counselling room

Primary Health

General practice and community sector professionals.

Duration: 3h

Demonstration settings: Primary care, hospital & telehealth

Youth Services

Clinical and non-clinical roles, working with children and youth up to age 25.

Duration: 4h

Demonstration settings: Community, home, office & team meetings

Alcohol and Other Drugs

Counsellors, allied health, social workers, and peer workers in AOD services.

Duration: 3h 45m

Demonstration settings: Counselling room & care manager office

Included with SafeSide CARE: implementation support to plan, launch and embed the program, and SafeSide's standard evaluation, measuring the outcomes and impact of your organisation's participation.

Investment

Based on a subscription model.

YEAR ONE

Implementation cost: a one-time fee, then an annual subscription based on the number of people in the organisation.

FOLLOWING YEARS

Annual subscription only.
